

JGA Standard-Size Manual Spray Gun

Setting industry standards for high-production performance, the JGA standard-size manual spray gun also offers the comfortable fit and feel operators prefer. An economical option for waterborne and solvent-based material applications, the JGA stainless steel air spray gun delivers the quality results you need for tough applications.

- 300-grade stainless steel fluid passages offer waterborne compatibility, corrosion resistance and protection from harsh self-etching primers.

For gun, cap and tip information see charts on pages 28 & 29.

Productivity and Finish Quality

The productivity and finish quality of any DeVilbiss conventional air spray gun is determined by the air cap and fluid tip combination.

Ordering Information

The JGA standard-size spray gun is available with the following air cap and fluid tip set-ups, factory-assembled for immediate delivery. However, these are only the most popular set-ups – for other air cap and tip combinations that can be ordered separately, see the charts on pages 28 and 29.

Part No.	
JGA-510-30EX	JGA-510-765E
JGA-510-64HDD	JGA-510-765FF
JGA-510-704E	JGA-510-765EX
JGA-510-704FF	JGA-510-797FF
JGA-510-704FX	JGA-510-80EX
	JGA-510-797FX

These guns with fluid tip and needle can be ordered separately without air cap and retaining ring:

Part No.	
JGA-510-D*	JGA-510-FX*
JGA-510-E*	JGA-510-FW*
JGA-510-EX*	JGA-510-3-FF**
JGA-510-FF*	

* Models include stainless steel tips and needles.

** Models include "premium" 300-grade stainless steel tip with U.H.M.W. polyethylene insert (needle seat) and 300-grade stainless steel needle.

When ordering DeVilbiss spray guns, the part number includes information on the specific gun model, air cap and fluid tip you will receive.

Example: JGA-510-
